

Tuesday Week 22

European Family Policy

- Data about parental leave
- Range from 1970-2024
- Policy trends and cross-national differences.

- Make something that has a clear temporal dimension
- Compare across countries as well

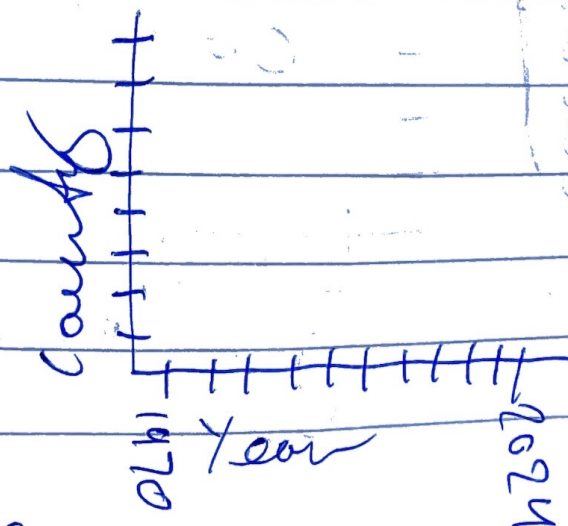

Variables:

Country

Year

Co-id

→ parental leave

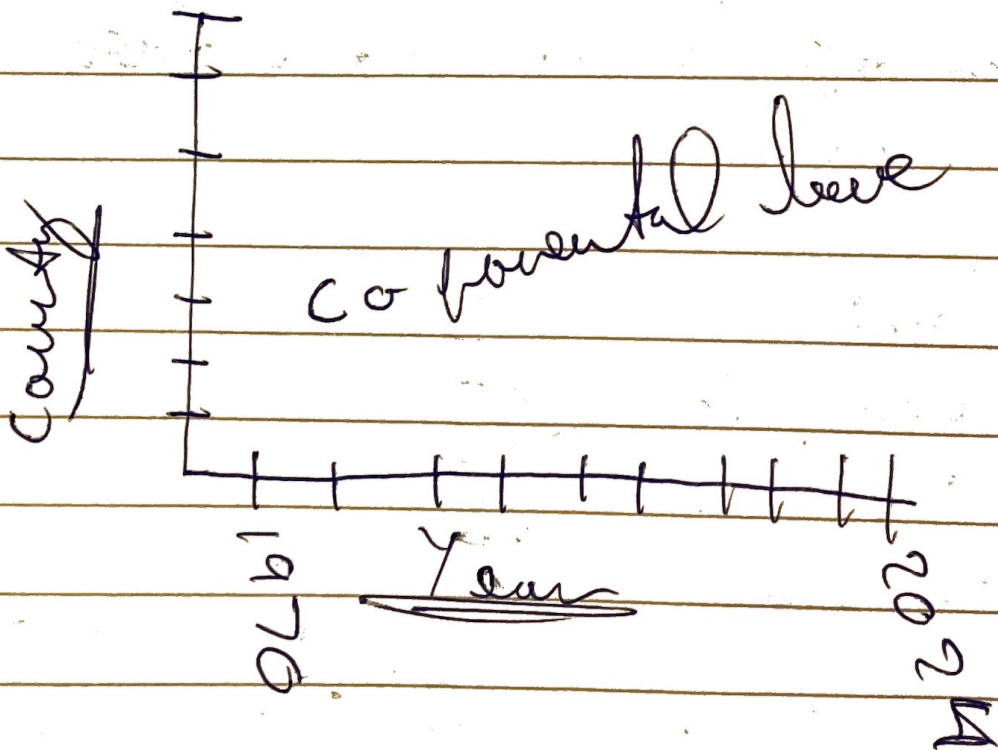

co parental leave as
a minimum variable?

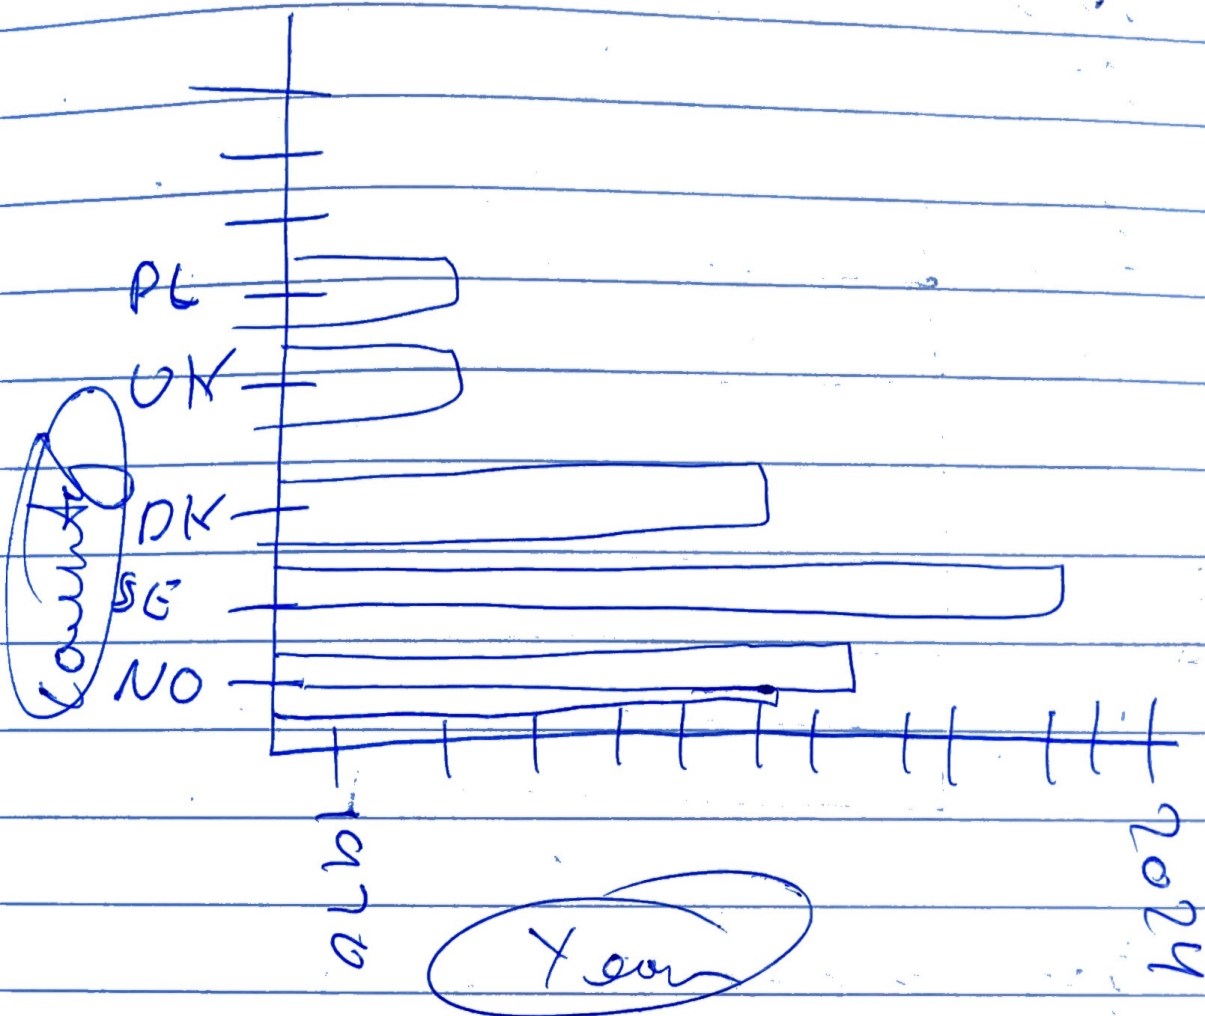

↳ Measure maximum
duration

Maximum duration
country
Year

Maximum
duration of
parental leave
of country and
Year.

Bar chart of same row?
One bar for each country.

- Does not work as a good visual for temporal changes
- But a really close ~~with~~ Would work?

Went wrong? for country-year structure

Time →
1970 1980

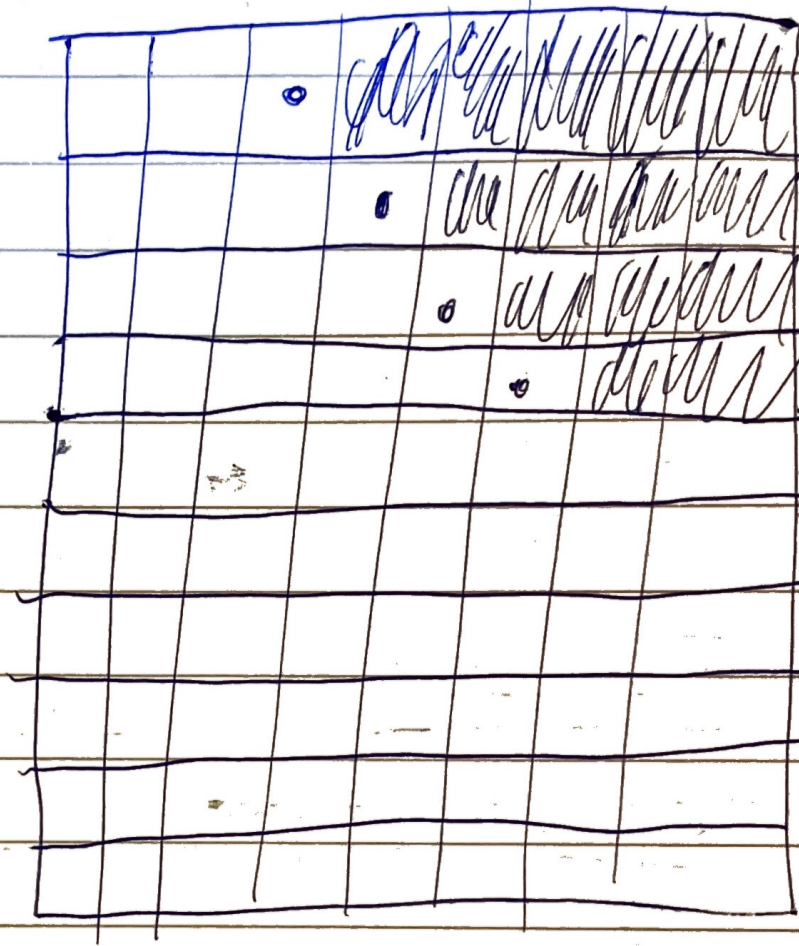

2010 2024
